

## HQ2 Impact Screen Material – General Guidelines

### Mounting

- Use only the mounting method(s) recommended / sold by Par2Pro
  - Only use backstop(s) recommended / sold by Par2Pro
- Do not put anything behind the screen that may get damaged (ie: windows) as a ball may go through the screen at the end of the screen's lifespan.

### Wrinkles

- Steam w/ cloth over steamer to prevent water stains
    - Low Setting to prevent melting of the yarn
    - Steam iron flat on turf flooring for best results
    - Pressing too hard may produce waves / puckering
  - Use only distilled water unless otherwise noted in the steamer's instructions
- Par2Pro uses the Conair GS23RC Extreme Steam Fabric Steamer with Dual Heat; however, we cannot guarantee your results will be the same as ours.*

### Usage

- Use proper golfing methods
  - Always use clean clubs and balls
- Do not use Pro V1 golf balls as we have found these to reduce the screen life significantly
  - Ensure all balls do not have ANY damage (cracks, nicks, etc.) or markings
- Check screen regularly for wear, should you find any wear that may turn into a hole/tear, discontinue use immediately and contact Par2Pro for a replacement

### Regular Cleaning

- Remove any attachments (ie: netting) if possible
  - Warm water wash
  - No bleach or detergents
  - Wash dark colors separately
  - Tumble dry synthetic setting

### Stains

- Results may vary according to the stain
  - Use mild dishwasher soap
  - Test in an inconspicuous location

### Warranty

- The lifespan of your screen will largely depend on how much use it gets and how well you follow the above guidelines - we have seen screens last anywhere from 6 months to 7 years
  - Par2Pro provides a 1 Year Pro-Rated Warranty on FINISHED screens only
    - The warranty only covers manufacturer defects
  - Any sign of not following the above guidelines will void warranty

**Since we are unable to control mounting, usage and maintenance, any warranty claim is subject to the sole discretion of Par2Pro**

*Use the above information as a general guideline only. Use and care at your own risk – it is best to exercise caution when caring for your screen. Par2Pro accepts no liability for the HQ2 Impact Screen Material. Copyright 2016 Par2Pro, a division of 1363150 Alberta Ltd.*
